Approx.
Programme subject to change

---

eAssessment Association Annual General Meeting - 11th April, Fleet Room, 08:45 - 09:15

The e-Assessment Association is an international not-for-profit membership organisation for everyone involved in, working with, using or developing technology to enhance assessment delivery. Together we aim to provide professional support, facilitate debate and discussion, communicate the positive contributions that technology makes to all forms of assessment and share news and good practice worldwide.

In this our 2019 AGM we will discuss progress made in moving the association forward to better serve the needs of our members and review the performance of the association over the last 12 months, including a financial summary and membership statistics report. We will also announce the results from our 2019 eAA Board elections, which looks to elect or re-elect members to the association's board for a three year term.

The meeting is open to everyone, both members and prospective members, and refreshments in the form of tea/coffee and a range of hot breakfast sandwiches will be provided.
